Customers enjoy the ability to have a choice. They also deserve one. From attorneys to radio personalities; sometimes a typical cab just does not fit the scenario or medium of travel needed. Please allow customers as well as drivers to have a fair choice. Thanks

Hi,

For a state with some of the highest DUI related injury rates and a lack of public transportation, SC should be encouraging this type of competition. Please get your tax code updated so you can take advantage of this progress or pay the bill to subsidize those who need these services.

Thanks
Robert Osmer
